

2019 NAPANOOK Napa Valley
Napanook Vineyard, Yountville, CA

TASTING NOTE

Napanook 2019 is vibrant with lilac, boysenberry, licorice and lively tannins. It can be enjoyed in its youth or aged for several years.

VINTAGE SUMMARY

2019 was characterized by a wet winter and wet spring and contrasting temperatures. January was warmer than average followed by the coldest February since 1998. April was the second warmest April after 2013 and May was rainy and particularly cold. An early heatwave reaching 102 F on June 10th and 11th represented a violent change of temperature after a very cold month of May. With saturated soils and warm temperatures, the vines had exuberant shoot growth throughout the summer. Summer was warm with high temperatures from June to September higher than the historical average.
